Test email by WPO365 | LOGIN Graph Mailer

Hi there

Thank you for choosing WPO365 | LOGIN and its extension to seamlessly connect your WordPress website with the powerful world of Microsoft Office 365 and Azure AD.

This email is a test and is sent to you on your own request upon saving updated settings for the Graph Mailer feature.

I hope everthing works as expected. If not, then please don't hesitate and get in touch, for example through the blue help beacon that you find when you go to your WordPress Admin Dashboard > WPO365.
